#### **RESEARCH:**

##### Research Projects:

- Physical conditioning and exercise strategies for maintenance of functional state in older subjects, especially frail elderly populations.
- Epidemiology and clinical significance of viral respiratory tract infection in older individuals.

- Strategies for prevention of deconditioning and improved care of elderly during acute hospitalization.
- Mechanisms of altered airway function in viral respiratory tract illness in adults.
- Strategies for improving geriatric education of generalist physicians in training.
- Community-based education for medical students

Hartford Foundation (\$525,000)

Principal Investigator

“Developing the Next Academic Centers of Excellence) 2001-2004  
Hartford Foundaion (\$1,500,000).

Co-investigator

“Integrating Geriatrics into ‘The Double-Helix ‘ Curriculum”  
Reynolds Foundation (\$2,000,000).

Principal Investigator

Research Training in Geriatrics and Gerontology  
National Institute of Aging.

**INTRAMURAL COMMITTEES:**

Department of Medicine Promotions Committee (1992-)  
Executive Committee, Department of Medicine (1992-)  
Chair, Subacute Task Force, Integrated Delivery System Committee (1994)  
Chair, Strong Memorial/Highland Health Systems Geriatrics Transition Team (1996)  
Chair, Continuum of Care Committee-Strong Health Partners (1997-)

**ADMINISTRATIVE RESPONSIBILITIES (1983-present):**

- **Director, Division of Geriatrics and the Center for Health Aging (2002 - Present).**
- **The Paul Fine, MD Professor of Medicine (Geriatrics).**

Responsibility for the academic geriatrics program and clinical programs for the School of Medicine and Strong Health System.

- **President, American College of Physicians 2001-2002.**
